About

Hi there, you can call me **Jessy**.
I'm passionate about technology,
with a strong sense of grit and a
willingness to embrace discomfort
for the sake of growth.

Projects

WebCraft (New Venture)

WebCraft is a user-friendly website-building platform designed to empower individuals and small businesses to create professional websites without needing coding skills. Our free-to-use platform offers customizable templates, AI-powered assistance, and a drag-and-drop interface for easy website creation.

Bukid Bahay 2D Game (Capstone Project)

Our thesis project is a 2D desktop farming game that showcases Philippine crops and farms, promoting sustainable farming practices. It features pixelated graphics, user-friendly interface, and tower defense gameplay. I developed a website for our game to provide players with an understanding of our proposed game.

Flamehub Website and Mobile

Flamehub users can create posts and share their ideas, experiences, and insights with the entire school community. The app promotes vibrant discussions, allowing users to engage in conversations and express their opinions on a wide range of academic and non-academic topics.
